

# Project

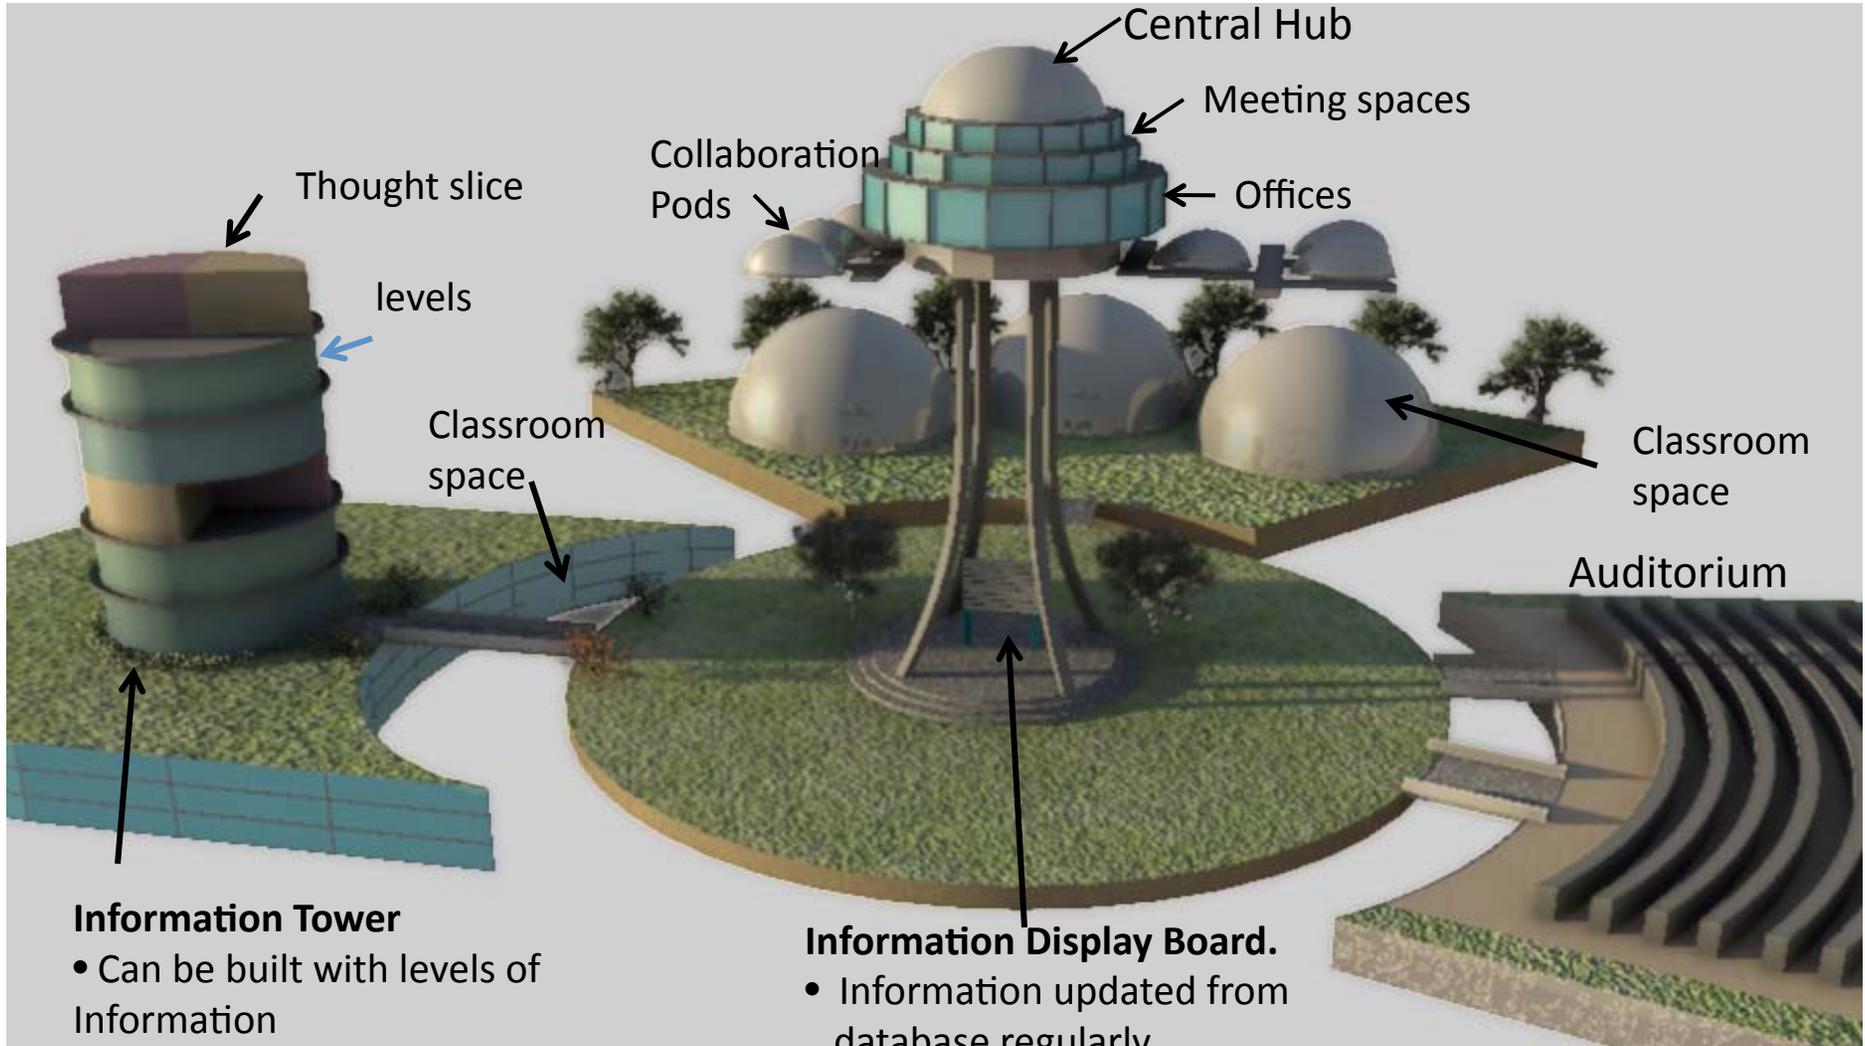

## NDU iCollege Use Case

Community of Practice  
& Knowledge Management

Paulette Robinson, PhD

# Overall Initial Design

## Information Tower

- Can be built with levels of Information
- Collaborative ideas appear as slices and can join to form whole thoughts (levels)

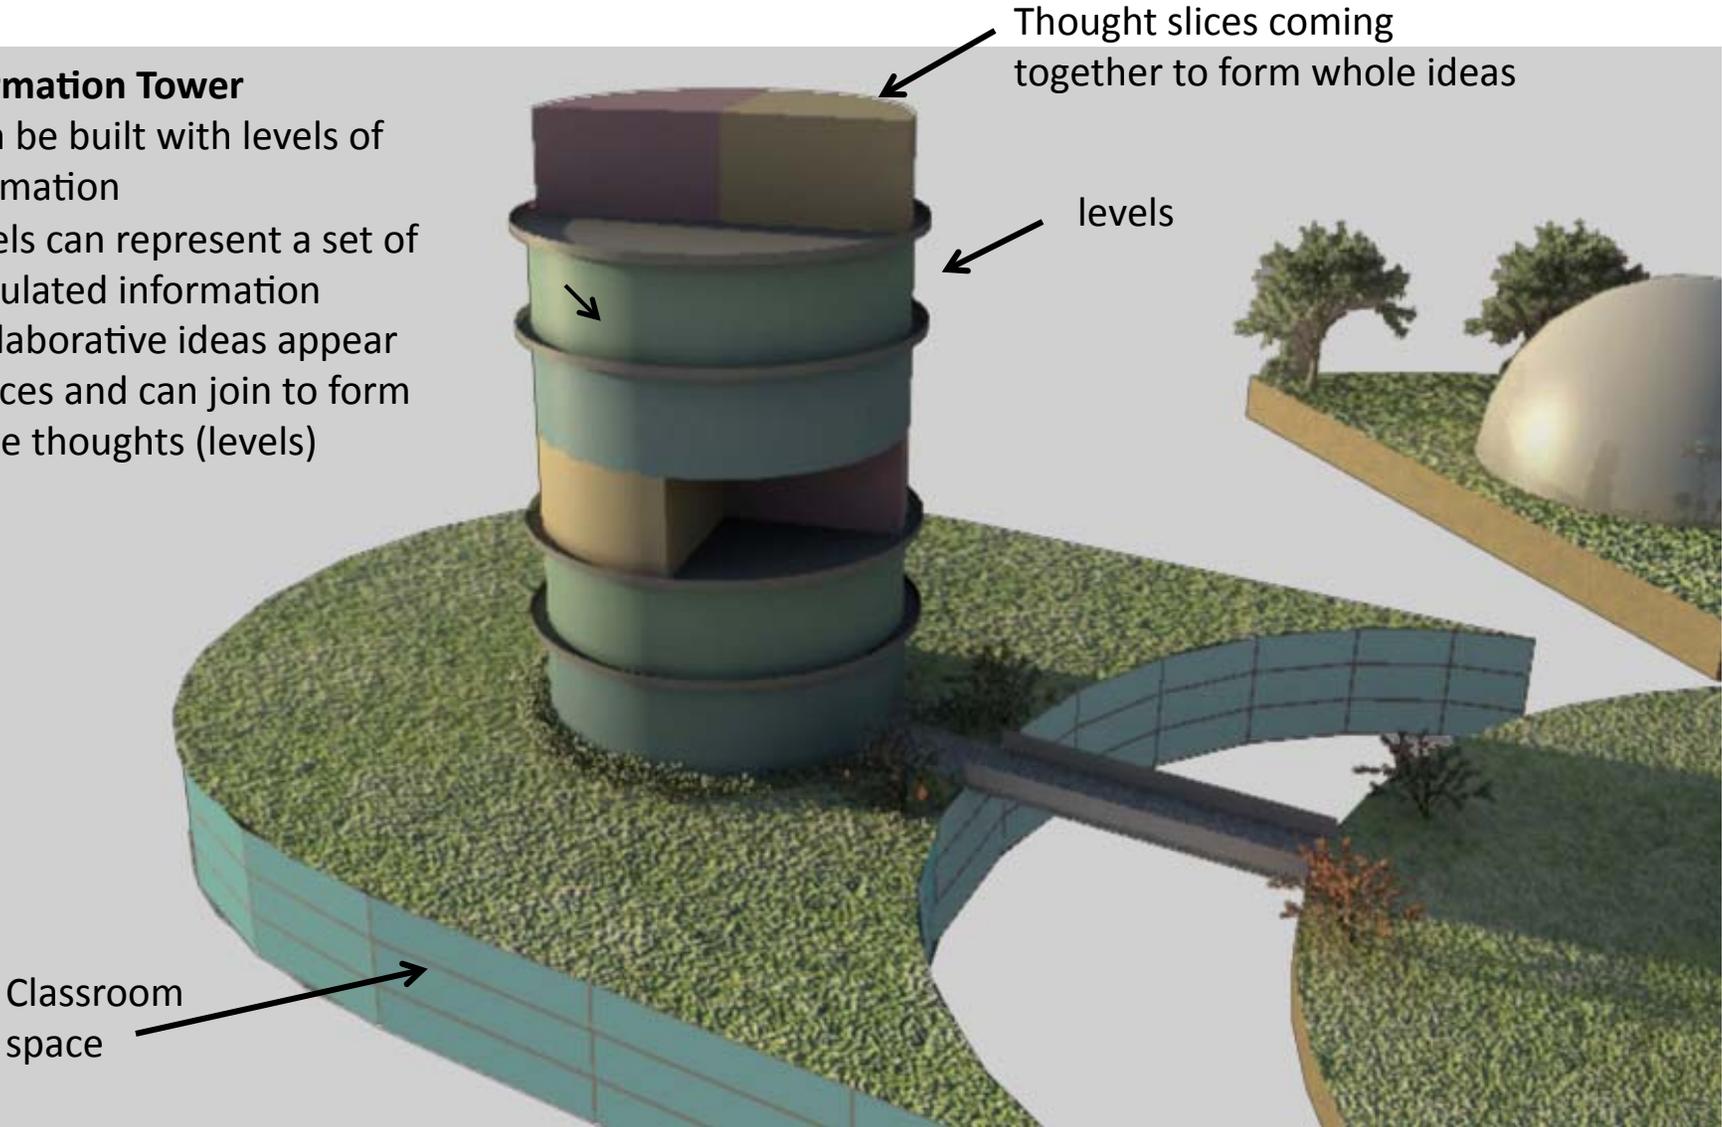

## Information Display Board.

- Information updated from database regularly
- Shows when and where classes are being held as well as guest speakers and other in space activities.

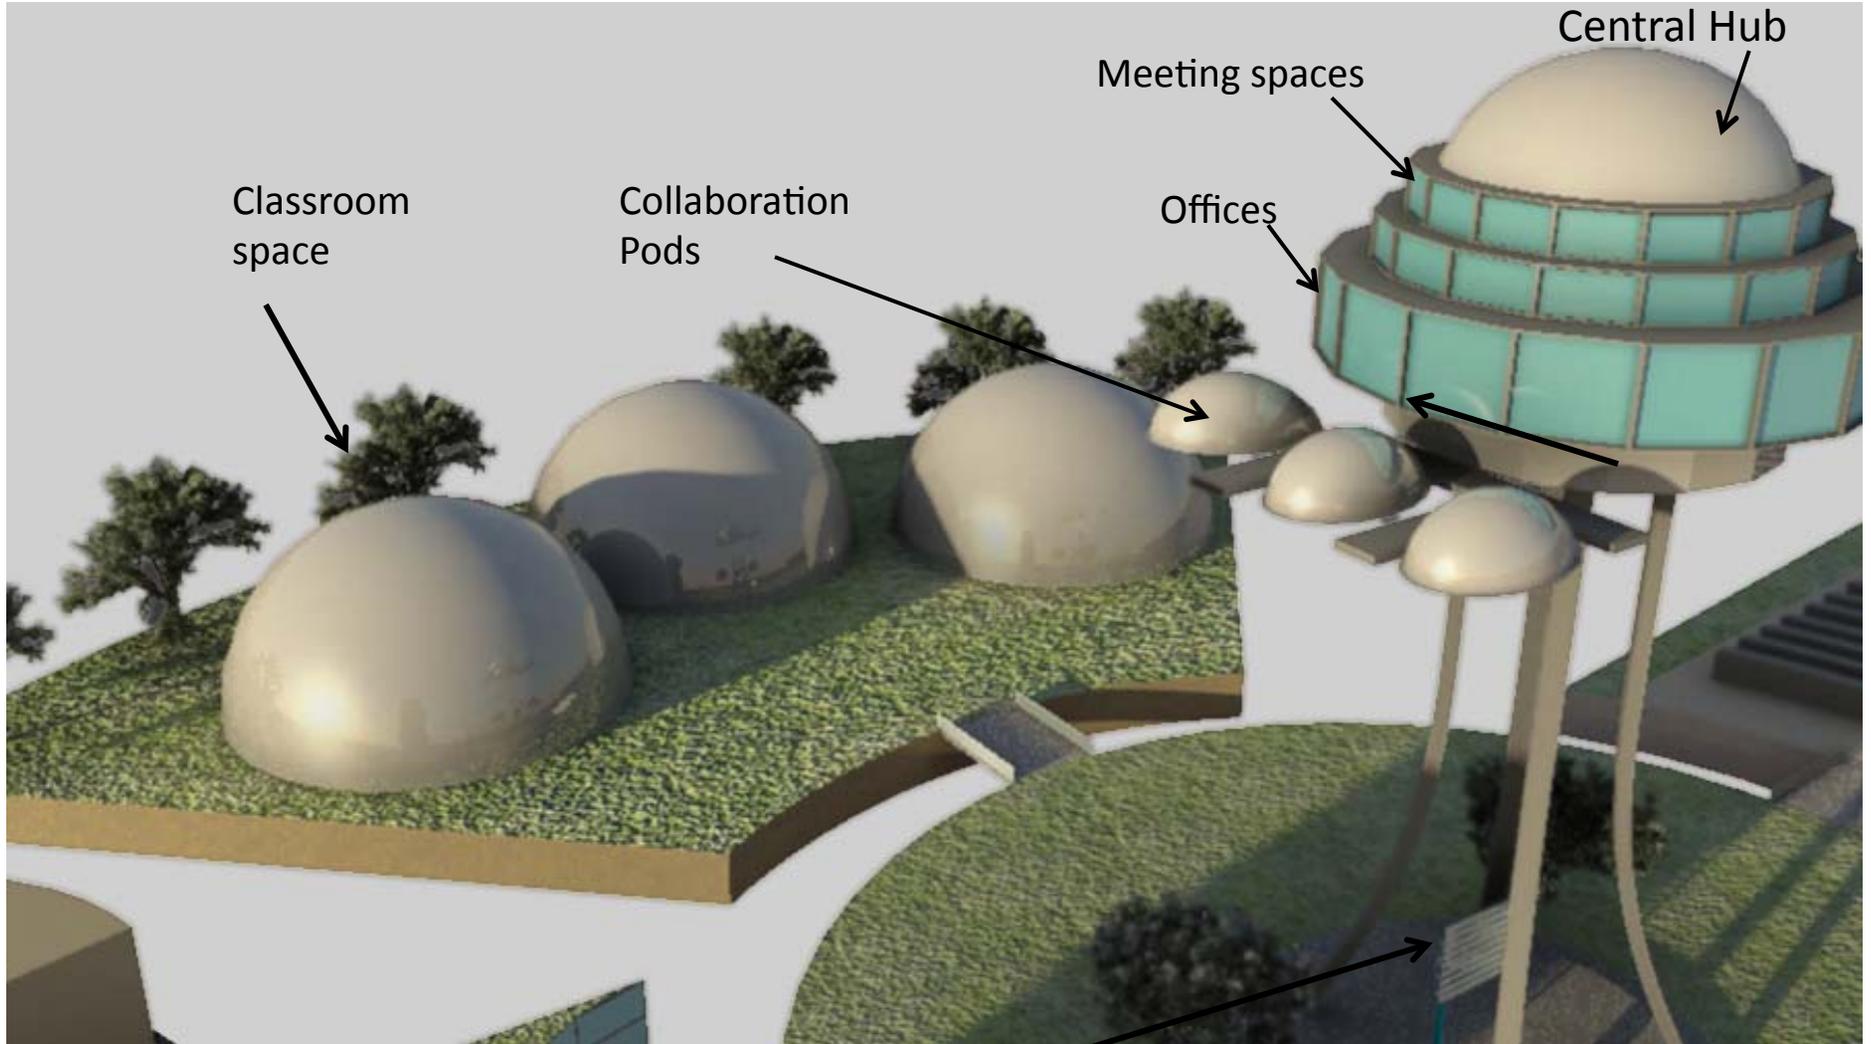

# Information Tower

## Information Tower

- Can be built with levels of Information
- Levels can represent a set of formulated information
- Collaborative ideas appear as slices and can join to form whole thoughts (levels)

# Collaboration

## **Information Display Board.**

- Information updated from database regularly
- Shows when and where classes are being held as well as guest speakers and other in space activities.

# Phase 1: Building the Space 2010

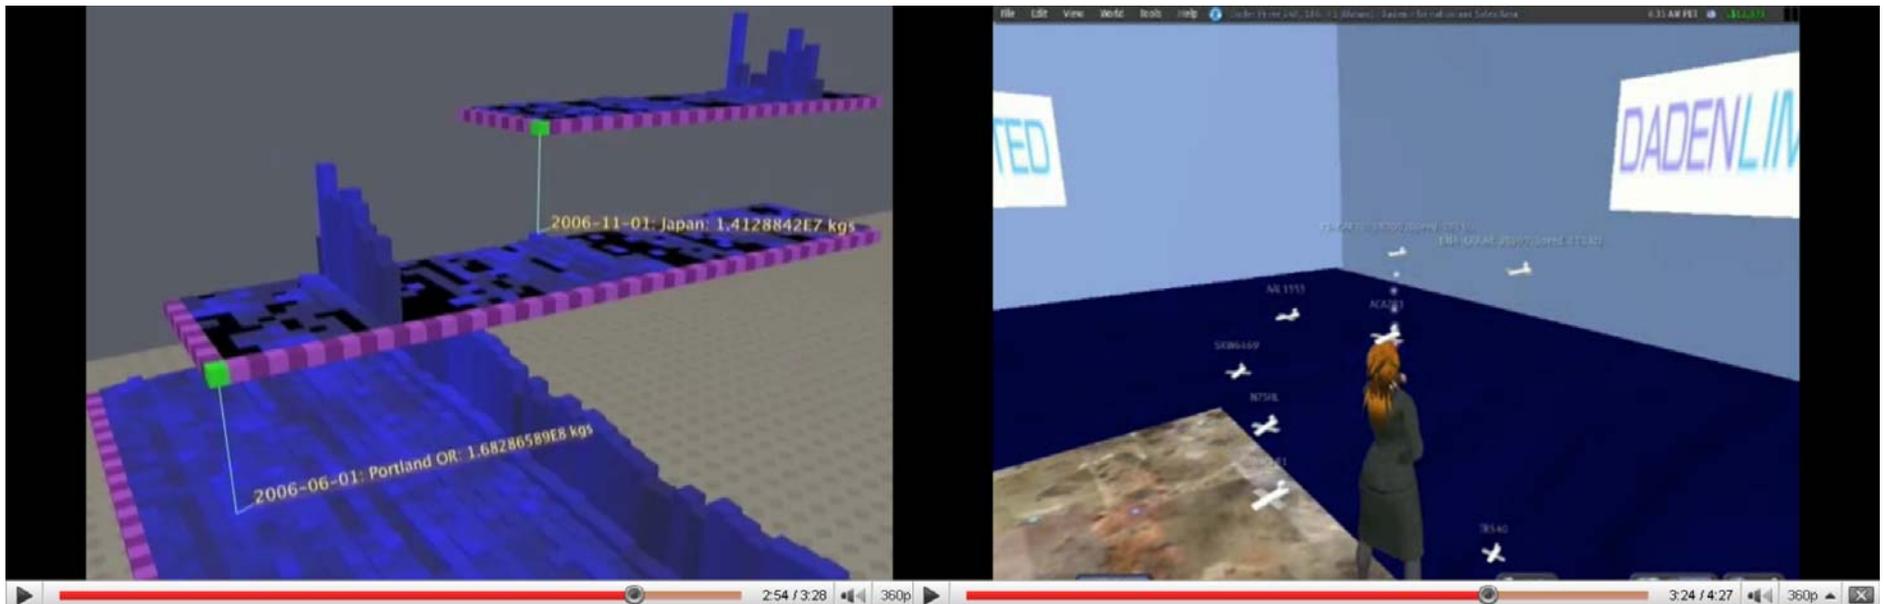

- Create persistent space in Vastpark
  - Large & small meeting/collaboration rooms
  - Gathering areas
  - Instructional areas
  - Office spaces
- Register faculty, staff and students into eAuth
- Train faculty, staff and students to use Vastpark
- Design instructional activities
  - ERP Process 3-D Model
  - Financial Management Data Visualization
- Design knowledge management area
- Meeting for CFO community

# Phase 2: Analytics & Knowledge Management 2011

- ☒ Connecting to outside databases
- ☒ Creating thought slices with connections
- ☒ 3D visualization of data
- ☒ Collaboration with others on data

# Phase 3: Automating 2012

- ■ ■ Creating persistent landing spaces
- ■ ■ Forms to create spaces
  - ■ ■ Instructional spaces
  - ■ ■ Collaboration spaces
  - ■ ■ Office spaces
- ■ ■ Spaces saved as links to use later
