

**1200-1315 Luncheon**

Room 155, Marshall Hall

**Speaker: Professor Leon Fuerth**, *Research Professor of International Affairs, George Washington University*

**1315-1445 Panel 2: Voice of Industry**

Strategic Support of U.S. Critical Technology Sectors: If So, How So? Absent a geo-strategic military adversary in the post-Cold War era who threatens the homeland, no consensus has emerged around how to define the economic element of national power, nor to what strategic ends that element should be employed. From the perspective of four representative critical sectors, the panel will: characterize the U.S. techno-industrial base; offer insights into conceptual directions government and industry might go with respect to S&T policy and/or government-created markets; and pose options for governmental solutions to influence the security and competitiveness of the base. The discussion will address the topic in the context of the challenges presented by the single, global economy based on the dollar and the continuing public/private sector debt crisis.

Chair: **Mr. John F. Morton**, *Distinguished Fellow, Project on National Security Reform*

Panelists:

- **Mr. Guy Copeland**, *Vice President, Information Infrastructure Advisory Programs, CSC-IT*
- **Mr. Jonathan L. Etherton**, *Principal, Etherton and Associates*
- **Mr. Bill Helming**, *PRTM Management Consultants*
- **Mr. Sanjay Rishi**, *Group Vice President, Global Information Technology Automotive Experience, Johnson Controls, Inc.*

**1500-1615 Panel 3: Voice of Government**

The executive and legislative branches of the federal government and the corporate officers of America need to begin a dialogue to learn from one another and work together in the national interest. The nation will benefit from a relationship based on trust and fairness, a difficult challenge in light of recent economic challenges, the drilling disaster in the Gulf, and the highly-charged political environment.

Chair: **Ms. Carmen Medina**, *Independent Consultant, Innovative Analytic Solutions, former Deputy Director for Intelligence, Central Intelligence Agency*

Panelists:

- **Mr. Mark Crawford**, *Senior Trade Industry Analyst, Office of Technology Evaluation, U.S. Department of Commerce*
- **Ms. Matice Wright**, *Deputy Director, Industrial Policy, Office of the Deputy Under Secretary Of Defense (Acquisition and Technology)*
- **Mr. Josh Kerbel**, *Senior Advisor, Metacognition, Office of the Director of National Intelligence*

**1615-1645 Keynote**

**Mr. Pierre Chao**, *Managing Partner, Renaissance Strategic Advisors*

**1645-1700 Closing Remarks**

**Dr. Sheila Ronis**, *Conference Chair, Walsh College*

WEDNESDAY, AUGUST 25

**0905-0930**      **Conference Overview**  
**Dr. Sheila Ronis**, *Conference Chair, Walsh College*

**0930-1015 Panel 4-1: Expeditionary Economics**

Chair: **Dr. R. Stephen Brent**, *Chair, Department of Economics, Industrial College of the Armed Forces, National Defense University*

Panelists:

- **Mr. Bernie Carreau**, *Senior Fellow, Center for Technology and National Security Policy*
- **Colonel Jeffrey D. Peterson, USA**, *Academy Professor of Economics, United States Military Academy*

**1030-1145 Panel 4: Energy Security Fuels Our National Security**

Energy is the life-blood of the economy and our military forces. Energy and environmental security are at the forefront of U.S. national agenda. From new policies on climate change to evolving energy markets to the United States' approach to regional conflict, energy and the environment are at the heart of U.S. economic and national security policies.

Chair: **Mr. Keith W. Cooley**, *CEO, Principia, LLC*

Panelists:

- **Dr. Larry Johnson**, *Director, Center for Transportation Technology Research and Development, Argonne National Laboratory*
- **Mr. William C. Walden**, *President, Technikon, LLC*
- **Mr. Louis Infante**, *Executive Director, Military and Government Markets, Ricardo, Inc*

**1200-1315 Luncheon**

Room 155, Marshall Hall

**Speaker: Dr. Claude Canizares**, *Vice President for Research and Associate Provost, Massachusetts Institute of Technology*

**1315-1445 Panel 5: The Role of Research and Development, Science, and Technology**

Reaffirming America's role as the global engine of scientific discovery and technological innovation has never been more critical. Challenges like climate change, pandemic disease, and resource scarcity demand new innovation. Meanwhile, the nation that leads the world in building a clean energy economy will enjoy a substantial economic and security advantage. (from the 2010 National Security Strategy)

Chair: **Dr. Linton Wells**, *Director, Center for Technology and National Security Policy, Institute for National Strategic Studies*

Panelists:

- **Mr. Reed Hundt**, *CEO, Coalition for Green Capital*
- **Dr. Luis Kun**, *Information Operations and Assurance Department, Information Resources Management College, National Defense University*
- **Dr. James Valdes**, *Senior Research Fellow, Center for Technology and National Security Policy, Institute for National Strategic Studies*

**1500-1615 Panel 6: The Role of Human Capital**

In a global economy of vastly increased mobility and interdependence, our own prosperity and leadership depends increasingly on our ability to provide our citizens with the education that they need to succeed, while attracting the premier human capital for our workforce. We must ensure that the most innovative ideas take root in America, while providing our people with the skills that they need to compete. (from the 2010 National Security Strategy)

Chair: **Ms. Myra Howze Shiple***tt*, *President, Randolph Morgan Consulting, LLP*
