

Section 1683 of the FY23 NDAA, which directs AARO to produce a Historical Record Report (HRR) on U.S. Government activities and events related to UAP from 1945 to present. Oral history interviews, records of the National Archive, open source research, and all records and documents from U.S. Government agencies are the foundational pillars of information supporting the HRR. The *AARO Contact Form for Authorized Reporting* enables AARO to contact individuals to schedule oral history interviews.

The respondents are current and former U.S. Government employees, service members, and contractors who want to contact AARO in furtherance of providing authorized reporting regarding potential U.S. Government activities and events related to UAP. The respondents will be asked to voluntarily provide their contact information by completing fields and using drop down menus on a page within AARO's website (www.aaro.mil). This form is the only collection instrument, is 100 percent electronic, and is accessible by any web browser, via both desktop and mobile device. The collection is sent to AARO once the respondent clicks the "Submit" button on the website. No other communications are sent to the respondents that solicit responses. The Office of the Secretary of Defense Public Affairs will notify the public when AARO's contact form is available for use.

Information, including PII, collected from the public will be processed and stored in an electronic environment accredited to handle and secure PII. AARO will then review submitted information to prioritize potential oral history interviews of persons so that they might make an authorized report. The end result of the information collection is the successful ability of individuals to contact AARO, provide a report, and contribute to the HRR, and for AARO to meet its statutory requirements.

Title of Collection: Charter Online Management and Performance System (COMPS) CMO APR.

OMB Control Number: 1810–NEW.

Type of Review: New ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 90.

Total Estimated Number of Annual Burden Hours: 2,970.

Abstract: This request is for a new OMB approval to collect the Annual Performance Report (APR) data from Charter School Programs (CSP) Replication and Expansion of High-Quality Charter Schools (CMO) grantees. The Charter School Programs (CSP) was originally authorized under title V, part B, subpart 1, sections 5201 through 5211 of the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind (NCLB) Act of 2001. For fiscal year 2017 and thereafter, ESEA has been amended by the Every Student Succeeds Act (ESSA), (20USC 7221–7221i), which reserves funds to improve education by supporting innovation in public education and to: (2) provide financial assistance for the planning, program design, and initial implementation of charter schools; (3) increase the number of high-quality charter schools available to students across the United States; (4) evaluate the impact of charter schools

on student achievement, families, and communities, and share best practices between charter schools and other public schools; (5) encourage States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount States typically provide for traditional public schools; (6) expand opportunities for children with disabilities, English learners, and other traditionally underserved students to attend charter schools and meet the challenging State academic standards; (7) support efforts to strengthen the charter school authorizing process to improve performance management, including transparency, oversight and monitoring (including financial audits), and evaluation of such schools; and (8) support quality, accountability, and transparency in the operational performance of all authorized public chartering agencies, including State educational agencies, local educational agencies, and other authorizing entities.

The U.S. Department of Education (ED) is requesting authorization to collect data from CSP grantees within the CMO program through a new online platform. In 2022, ED began development of a new data collection system, the Charter Online Management and Performance System (COMPS), designed specifically to reduce the burden of reporting for users and increase validity of the overall data. This new collection consists of questions responsive to the actions established in the program's final rule published in the **Federal Register** on July 6, 2022, as well as the CMO program Notice Inviting Applications (NIA). This collection request is a consolidation of all previously established program data collection efforts and provides a more comprehensive representation of grantee performance.
