

# STEPS TO COMPLETE THE CYBER AWARENESS CHALLENGE

You can complete this course on any electronic device. We recommend using a computer and not a phone to complete the course.

If you are having any issues, visit this website <https://public.cyber.mil/cyber-training/cybersecurity-training-troubleshooting-guide/#toggle-id-3>

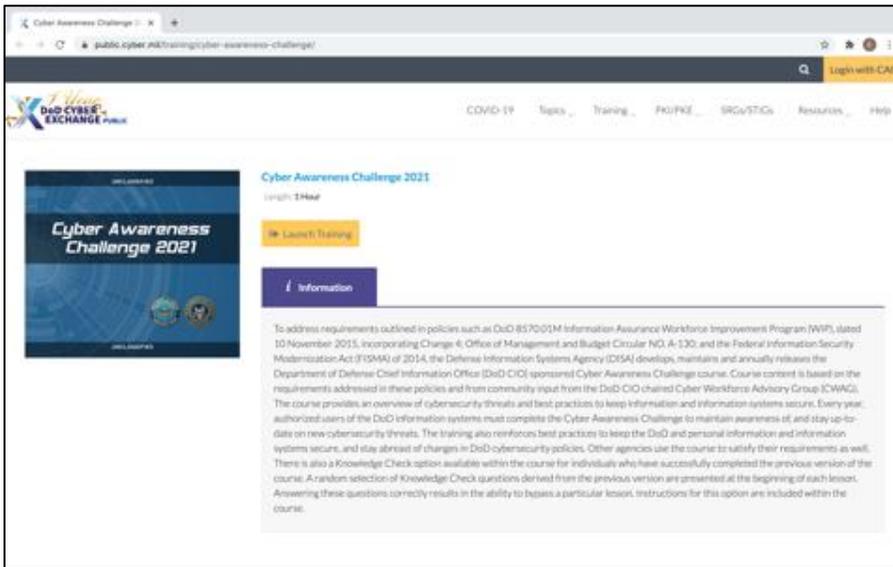

**\*NOTE:** we do NOT recommend completing this course on a phone. While it is possible, it is extremely difficult to navigate the course.

## STEP 1:

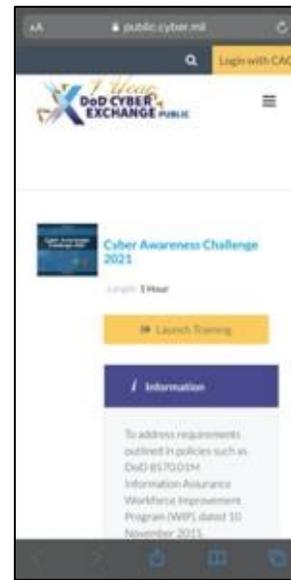

Click on the URL below or type it into your internet browser  
<https://public.cyber.mil/training/cyber-awareness-challenge/>

## STEP 2:

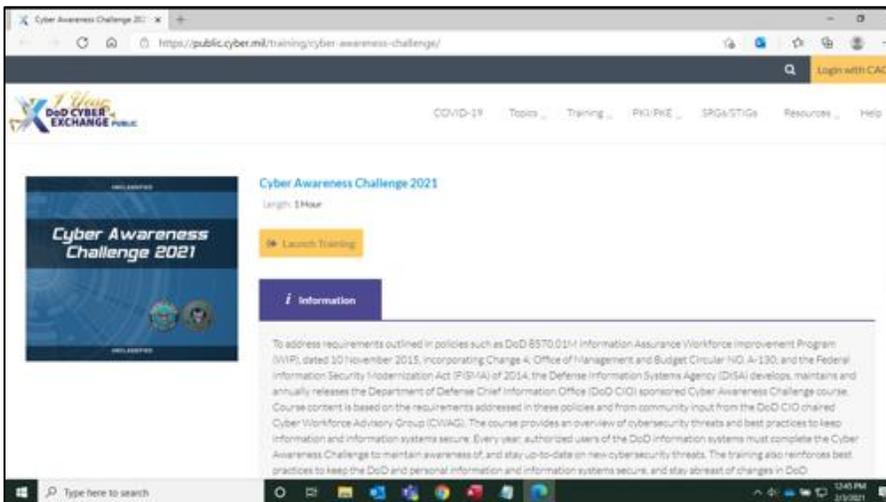

You should be directed to this screen.

MacBook Computer

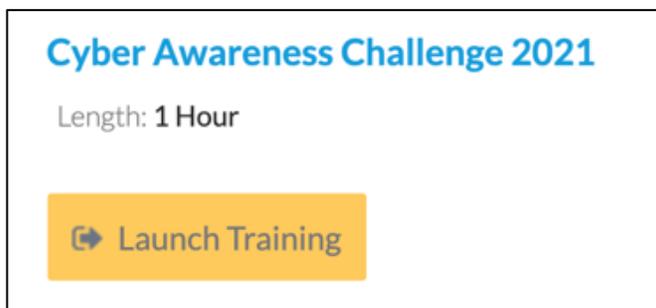

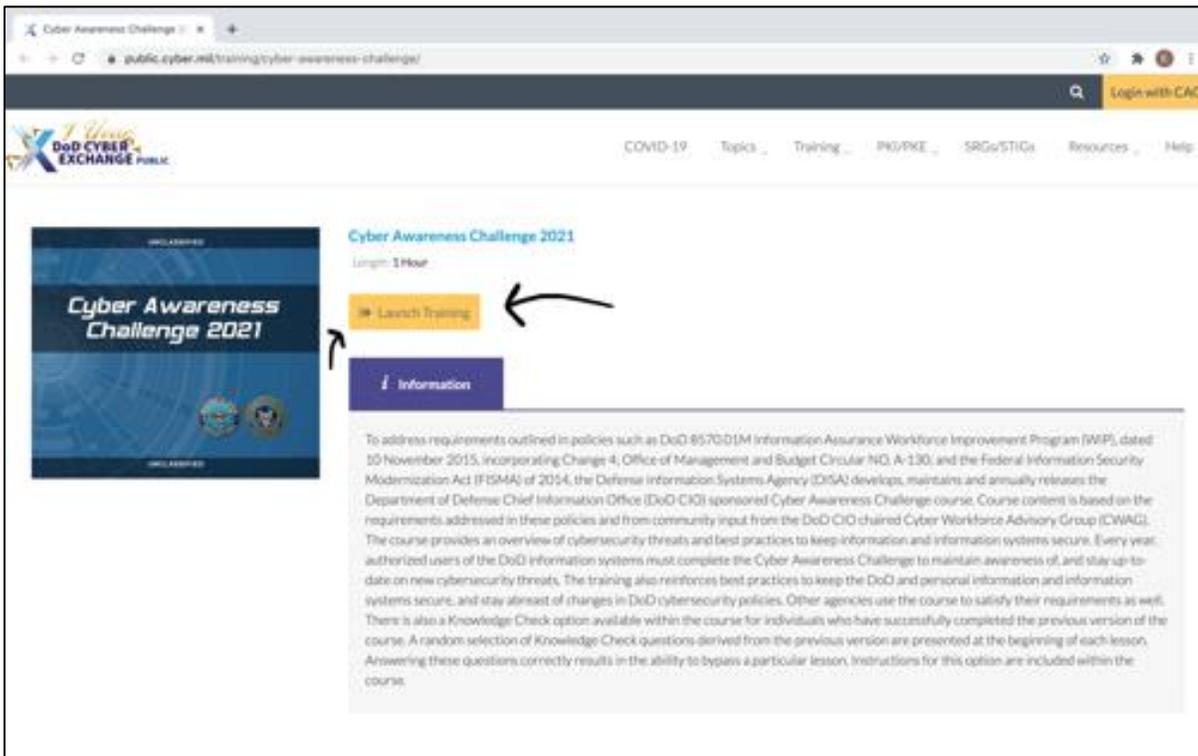

iPhone

Dell Laptop/Desktop computer

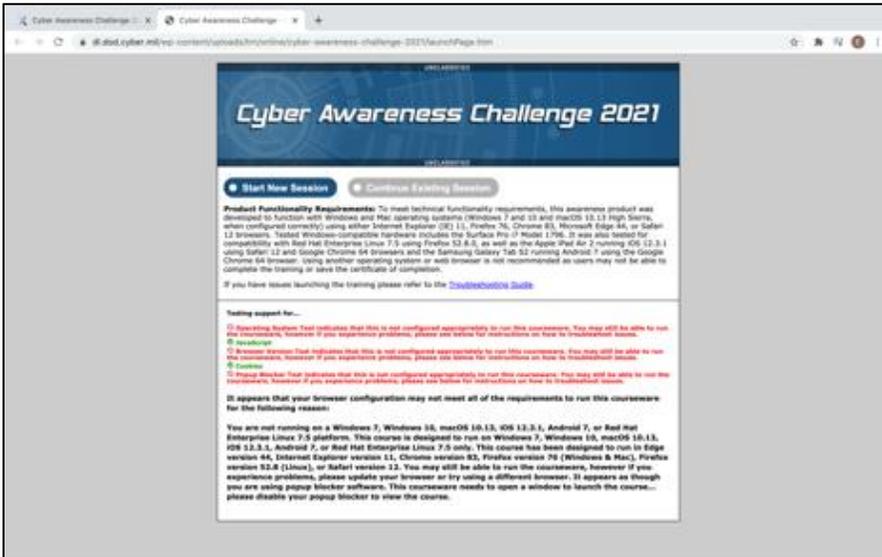

# STEP 3:

Click the Yellow button “Launch Training”

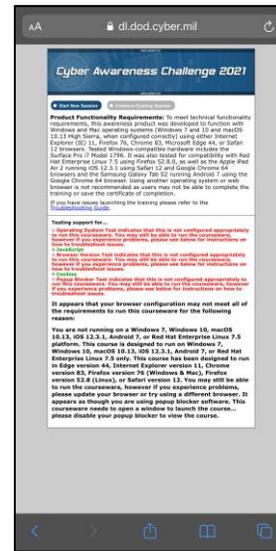

# STEP 4:

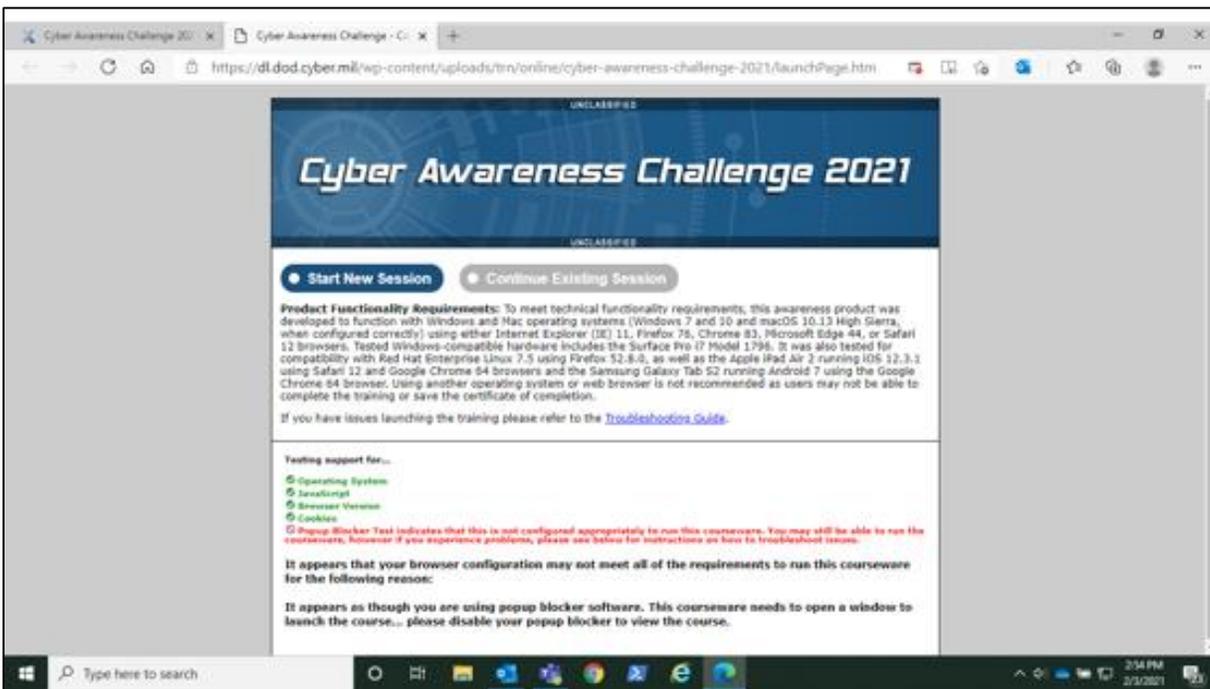

After launching the training you should see this screen below.

MacBook Computer

iPhone

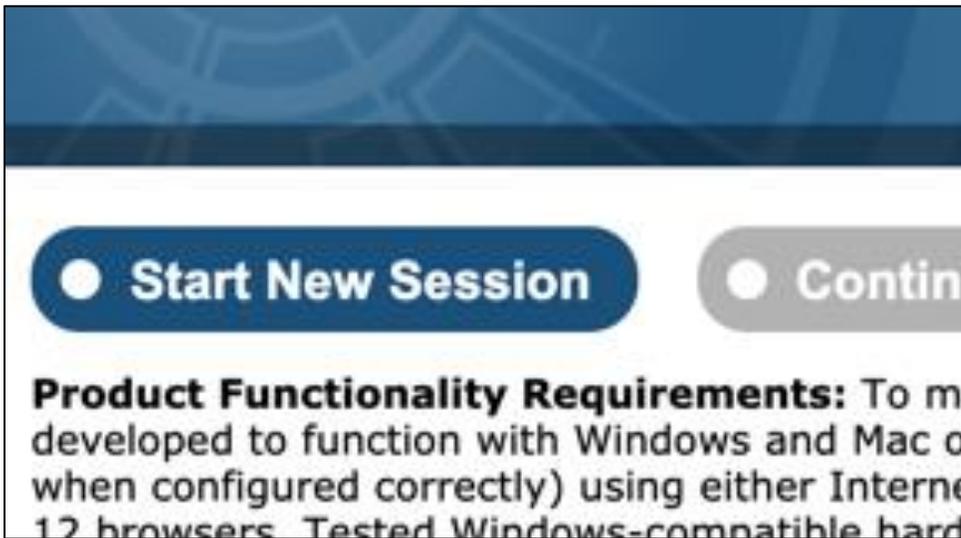

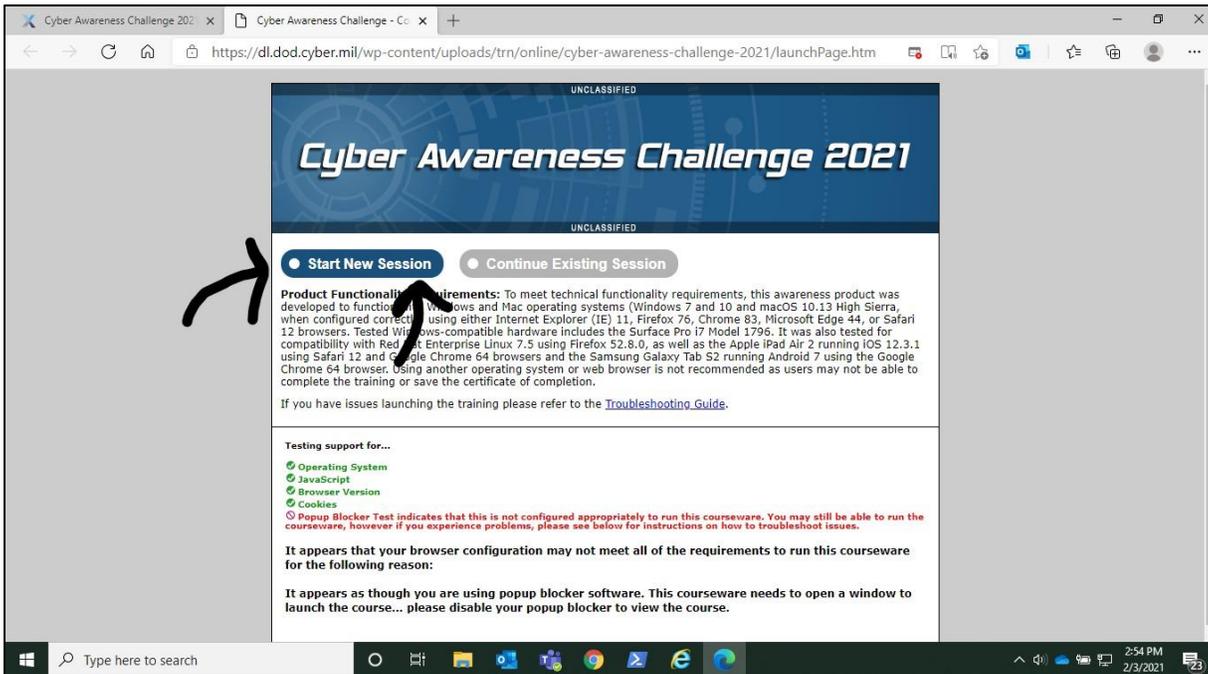

Dell Laptop/Desktop computer

\*NOTE:

You may notice a list of 5 items that are tested for support highlighted in red or green. While some may appear red, the course should still work without any issues.

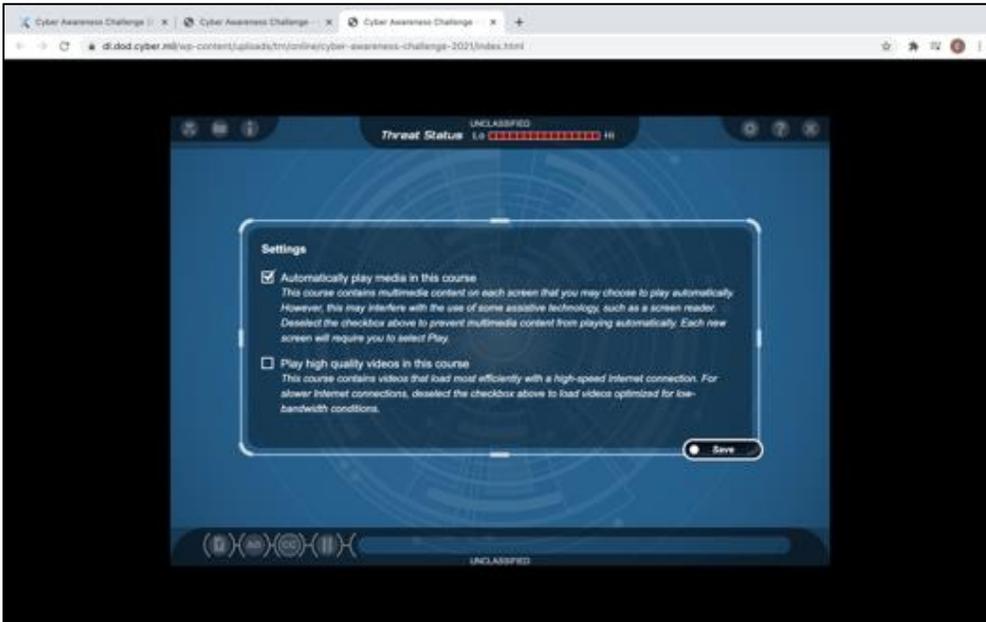

# STEP 5:

Click on “Continue Existing Sessions” to begin the course.

## STEP 6:

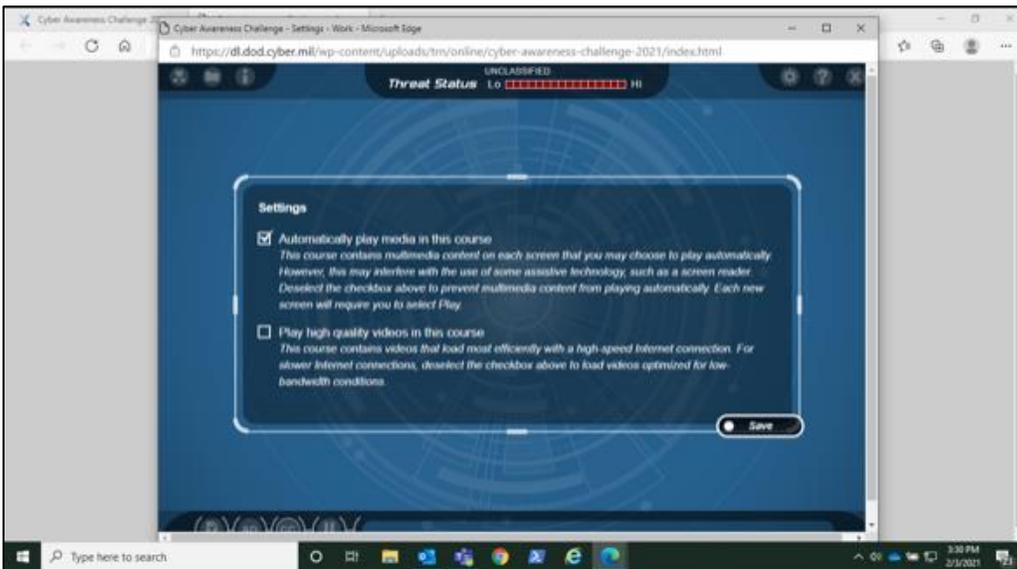

You will then be directed to the screen as seen below. You will be guided through the training from here. Follow the given prompts to complete the course.

MacBook Computer

iPhone

Dell Laptop/Desktop computer

## STEP 7:

Complete the course!

## STEP 8:

Exiting and reentering the course.

You can exit and reenter the course if you don't delete the cookie associated to your course. To avoid restarting click the "Continue Existing Course" on the same screen and browser you first used as seen below.

Simply put, *most* browsers will keep your progress until you close or shut down that browser. We recommend you take this course in one setting to avoid any possible errors where your progress would be erased.

**Product Functionality Requirements:** To meet technical functionality requirements, this awareness product was developed to function with Windows and Mac operating systems (Windows 7 and 10 and macOS 10.13 High Sierra, when configured correctly) using either Internet Explorer (IE) 11, Firefox 76, Chrome 83, Microsoft Edge 44, or Safari 12 browsers. Tested Windows-compatible hardware includes the Surface Pro i7 Model 1796. It was also tested for compatibility with Red Hat Enterprise Linux 7.5 using Firefox 52.8.0, as well as the Apple iPad Air 2 running iOS 12.3.1 using Safari 12 and Google Chrome 64 browsers and the Samsung Galaxy Tab S2 running Android 7 using the Google Chrome 64 browser. Using another operating system or web browser is not recommended as users may not be able to complete the training or save the certificate of completion.

If you have issues launching the training please refer to the [Troubleshooting Guide](#).

Testing support for...

- ✔ Operating System
- ✔ JavaScript
- ✔ Browser Version
- ✔ Cookies

⊗ **Popup Blocker Test indicates that this is not configured appropriately to run this courseware. You may still be able to run the courseware, however if you experience problems, please see below for instructions on how to troubleshoot issues.**

**It appears that your browser configuration may not meet all of the requirements to run this courseware for the following reason:**

It appears as though you are using popup blocker software. This courseware needs to open a window to launch the course... please disable your popup blocker to view the course.
